Financial Report Valora 2004

- 2 Preface from the CEO
- 4 Review of the Group's results
- 11 Consolidated financial statements
- 11 Consolidated income statement
- 12 Consolidated balance sheet
- 14 Consolidated cash flow statement
- 16 Consolidated statement of changes in shareholders' equity
- 17 Notes to the consolidated financial statements
- 48 Report of the Group auditors
- 49 Financial statements of Valora Holding AG
- 49 Income statement
- 50 Balance sheet before appropriation of available retained earnings
- 52 Notes to the financial statements
- 54 Proposed appropriation of available retained earnings
- 55 Report of the statutory auditors
- 56 Corporate Governance
- 68 Information for Investors
- 68 Shareholder and capital structure
- 69 Valora share price trends
- 71 Key share data and tax values
- 72 Development of the Valora Group
- 73 Five-year summary
- 74 Adresses

Dear shareholder,

The management of the Valora Group firmly pursued its adopted focus strategy in 2004, with a prime emphasis on the planned divestitures of real estate not required for operations and of business units outside the Group's core business. Despite a difficult economic environment and only very modest growth rates in the relevant markets, the financial result achieved by Valora for 2004 does permit a distribution of profits to shareholders in line with the levels of previous years. The Board of Directors will be recommending to the General Meeting of Shareholders that, instead of a dividend, the fiscally-attractive option be adopted of reducing the nominal value of the Valora share by CHF 9.00 and repaying this amount to shareholders.

Divestitures - the Spector joint venture. The divestitures effected in the course of the year generated gains of some CHF 90 million, slightly above expectations. Elsewhere, the Board of Directors and Group Executive Management decided to abandon negotiations with the Belgian-based Spector Group on a projected joint venture in the imaging field. The lack of financial securities for the planned medium-term sale to Spector of these activities and the complex legal structure which the joint venture would have required were ultimately the reasons for this decision. In view of the abandonment of these talks and the continuing difficulties in the photography sector, a further CHF 120 million impairment was effected to the Group's Fotolabo shareholding.

Differing profitabilities within the divisions. Consolidated net revenues for the Valora Group for 2004 were affected by the divestitures during the year and amounted to CHF 2'990 million, around 1% below their prior-year level. Excluding the gains from disposals and impairments effected to goodwill, the Group saw a slight year-on-year deterioration in its operating performance.

Valora Retail – below expectations: The negative trends in the core press products and tobacco goods markets continued in 2004 and led to a disappointing result for the division's Swiss kiosk operations. The German press and book business showed encouraging developments and returned to an operating profit after some difficult years.

Valora Wholesale – PGV acquisition offsets sales decline: As at Valora Retail, 2004 proved a testing year for the Valora Wholesale division. But, in acquiring the Austrian-based PGV Salzburg group, Valora made full use of an opportunity to strengthen the international dimension of its press wholesale business. The acquisition was successfully concluded in the third quarter, and PGV's operational integration had been largely accomplished by the end of the year.

Valora Trade – successful consolidation: Despite a further rise in the pressure on prices and margins in the production and trading sectors, Valora Trade achieved a small increase in its sales for the year. In organisational terms, the year was marked by efforts to concentrate resources: the division's Austrian organisation was simplified by the amalgamation of the K. Schweigl Handels GmbH + Co. KG distribution company and Plagemann Lebensmittel GmbH + Co. KG, while its Swedish operations were streamlined through the integration of the Again AB distribution company into Adaco AB. The restructuring activities already showed their effects, and the adjusted operating result was an improvement on its prior-year equivalent.

Valora Imaging – in the midst of technological change: Although digital film processing already accounts for some 10% of its total revenues, Fotolabo is feeling the impact of the faster-than-expected contraction of the analogue film business. The effects of the revenue declines in the imaging sector were partly offset by cost economies; but the annual operating result was halved to some CHF 13.9 million.

A strong cash flow. More effective management of net working capital and fiscally advantageous applications of losses brought forward helped raise operating cash flow to CHF 175 million. As a result, and despite the conducting of the share buyback programme, liquidity was improved by some CHF 82 million.

A healthy balance sheet. Even after the value adjustments and the share buyback programme carried out in the course of the year, the consolidated balance sheet at the end of 2004 showed an equity ratio of a healthy 41%, giving the Valora Group the scope and the entrepreneurial freedom to effect selected investments or acquisitions. A CHF 130 million syndicated credit facility was secured to cover the Group's medium-term financing needs.

Outlook. In view of the modest economic and industry forecasts and the continuing erosion of margins in the Group's core businesses, the Board of Directors and Group Executive Management have initiated further actions to reduce costs in 2005. We are confident that the ongoing restructuring and the improvements it will achieve will enable Valora to retain its financial earnings power, and will create a sound and solid foundation for further profitable growth within its core businesses.

Peter Wüst CEO Markus Voegeli CFO

Review of the Group's results

2004 was dominated by the further pursuit of the Group's declared focus strategy and the corresponding structural adjustments. While the sale of real estate no longer required for business operations and of various business units produced encouraging results, a satisfactory solution could only be found for the professional imaging sector of Valora Imaging's activities. An additional CHF 120 million impairment was required within this division following the abandonment of the joint venture negotiations with the Spector Group.

A Net revenues

| in million CHF | 2004 | 2003 | Change |
|------------------|---------|---------|---------|
| Valora Retail | 1 483.3 | 1 494.2 | - 0.7% |
| Valora Wholesale | 1 266.6 | 1 242.3 | 2.0% |
| Valora Trade | 897.8 | 930.3 | - 3.5% |
| Valora Imaging | 152.1 | 186.1 | - 18.3% |
| Corporate | 3.0 | 11.5 | |
| Elimination | - 812.7 | - 843.0 | |
| Total Group | 2 990.1 | 3 021.4 | - 1.0% |
| Switzerland | 1 927.6 | 1 983.1 | - 2.8% |
| Elsewhere | 1 062.5 | 1 038.3 | 2.3% |

The ongoing divestiture programme reduced Group net revenues by some CHF 46 million year-on-year. At the same time, however, sales in the Group's core business sectors were almost maintained, despite a still-difficult economic environment. The CHF 34 million decline at Valora Imaging is due largely to the substantial decline in analogue film development orders.

| in million CHF | 2004 | | 2003 | |
|---|---------|--------|---------|--------|
| Net revenues | 2 990.1 | 100.0% | 3 021.4 | 100.0% |
| | | | | |
| Consolidated EBIT | 54.2 | 1.8% | - 106.0 | n/a |
| - Gains on disposals of business units | - 22.5 | | | |
| - Gains on disposals of real estate | - 67.7 | | | |
| + Impairments and focus strategy costs | 12.5 | | | |
| EBIT before gains on disposals and focus strategy costs | - 23.5 | n/a | - 106.0 | n/a |
| + Amortisation of goodwill | 138.1 | | 201.2 | |
| Operating result before focus strategy and amortisation of goodwill | 114.6 | 3.8% | 95.1 | 3.1% |

The operating result for 2004 was substantially affected by gains from asset disposals and costs arising from the implementation of the Group's focus strategy. The proceeds from the sales of operating units outside the core business defined and of real estate not required for business operations slightly exceeded expectations at some CHF 90 million.

With due regard for the CHF 49 million exceptional expenses incurred in 2003 and for the loss of some CHF 5 million in EBIT contributions from business units now sold, the Group's operating result for 2004 before gains from asset disposals and goodwill amortisation was CHF 24 million below the prior-year result.

B Valora Retail

| in CHF million | 2004 | | 2003 | |
|---|---------|--------|---------|--------|
| Net revenues | 1 483.3 | 100.0% | 1 494.2 | 100.0% |
| | | | | |
| Consolidated EBIT | 25.5 | 1.7% | - 25.2 | n/a |
| - Gains on disposals of business units | - 1.9 | | | |
| EBIT before gains on disposals and focus stategy costs | 23.6 | 1.6% | - 25.2 | n/a |
| + Amortisation of goodwill | 1.2 | | 33.3 | |
| Operating result before focus strategy and amortisation of goodwill | 24.8 | 1.7% | 8.1 | 0.5% |

With net revenues virtually unchanged at CHF 1'483 million, the Valora Retail division posted an adjusted EBIT result of CHF 24.8 million and an EBIT margin of 1.7%. The sale of the Dolmetsch and Merkur Confiserien business units reduced net revenues by CHF 28 million. The net revenue for Switzerland's k kiosk business unit showed a slight 0.2% decline. After years of losses, the German press product and book business posted encouraging trends, and has been reporting an operating profit since June 2004.

C Valora Wholesale

| in CHF million | 2004 | | 2003 | |
|---|---------|--------|---------|--------|
| Net revenues | 1 266.6 | 100.0% | 1 242.3 | 100.0% |
| | | | | |
| Consolidated EBIT | 14.5 | 1.1% | 21.3 | 1.7% |
| - Gains on disposals of business units | - 0.5 | | | |
| + Impairments and focus strategy costs | 0.2 | | | |
| EBIT before gains on disposals and focus strategy costs | 14.2 | 1.1% | 21.3 | 1.7% |
| + Amortisation of goodwill | 2.9 | | 4.8 | |
| Operating result before focus strategy and amortisation of goodwill | 17.1 | 1.4% | 26.1 | 2.1% |

The net revenues for Valora Wholesale were a slight 2.0% improvement on 2003. The increase, however, is the result of the acquisition of the PGV Group effective October 2004 that added CHF 33 million to the divisional net revenue result. The CHF 4 million loss on receivables for the Swiss tobacco wholesale business in June 2004 and revenue declines in the Swiss services sector are the main reasons for the lower adjusted operating result.

Valora Trade

| in CHF million | 2004 | | 2003 | |
|---|--------|--------|-------|--------|
| Net revenues | 897.9 | 100.0% | 930.3 | 100.0% |
| | | | | |
| Consolidated EBIT | 62.0 | 6.9% | 14.5 | 1.6% |
| - Gains on disposals of business units | - 27.8 | | | |
| + Impairments and focus strategy costs | 1.3 | | | |
| EBIT before gains on disposals and focus strategy costs | 35.4 | 3.9% | 14.5 | 1.6% |
| + Amortisation of goodwill | 4.0 | | 19.8 | |
| Operating result before focus strategy and amortisation of goodwill | 39.4 | 4.4% | 34.3 | 3.7% |

Valora Trade reported a gain of CHF 27.8 million from the sale of Merkur Kaffee, Schirmer Kaffee (Germany) and Nuxo Marketing in the course of the year. The sales reduced net revenues by CHF 32 million and EBIT by CHF 5 million year-on-year. In view of this, and despite tough market competition, the division posted an encouraging performance for 2004.

The Own Brands business unit recorded net revenues of CHF 151 million and an EBIT of CHF 11 million for the year, while the Trade business unit reported net revenues of CHF 734 million and a CHF 23 million EBIT result.

Ε Valora Imaging

| in CHF million | 2004 | | 2003 | |
|---|---------|--------|---------|--------|
| Net revenues | 152.1 | 100.0% | 186.1 | 100.0% |
| | | | | |
| Consolidated EBIT | - 123.9 | n/a | - 115.9 | n/a |
| + Loss from disposals of business units | 7.8 | | | |
| EBIT before loss on disposals and focus strategy costs | - 116.1 | n/a | - 115.9 | n/a |
| + Amortisation of goodwill | 130.0 | | 143.3 | |
| Operating result before focus strategy and amortisation of goodwill | 13.9 | 9.1% | 27.4 | 14.7% |

The sale of Professional Imaging resulted in a loss of CHF 7.8 million and a CHF 7 million year-on-year decline in net revenues. Thanks to strict cost economies, Valora Imaging made a positive adjusted contribution to the consolidated EBIT result, despite a sizeable decline in analogue processing business. Given the present difficulties within the sector, the 9.1% EBIT ratio can be regarded as a satisfactory result. Following the abandonment of the joint-venture negotiations with the Spector Group, an analysis of the current financial potential of the Fotolabo Group resulted in an additional profit-relevant impairment of CHF 120 million.

F Corporate

| in CHF million | 2004 | 2003 |
|---|--------|-------|
| Net revenues | 3.0 | 11.5 |
| | | |
| Consolidated EBIT | 76.1 | - 0.7 |
| - Gains on disposals of business units | - 0.1 | |
| - Gains on disposals of real estate | - 67.7 | |
| + Impairments and focus strategy costs | 11.1 | |
| EBIT before gains on disposals and focus strategy costs | 19.4 | - 0.7 |
| + Amortisation of goodwill | 0.0 | 0.0 |
| Operating result before focus strategy and amortisation of goodwill | 19.4 | - 0.7 |

The Corporate sector reported a CHF 67.7 million profit from the sales of real estate no longer required for business operations and, at CHF 11.1 million, incurred most of the costs arising from the implementation of the focus strategy. The latter include costs relating to the ongoing sales negotiations, consultancy fees and impairments on remaining real estate no longer required for business operations.

G Financial result

Financial expenses showed a year-on-year decline thanks to favourable refinancing of the 4.75% bond repaid in August 2003 and a reduction in interest-bearing Group net debt. Financial income was CHF 3.8 million below its prior-year level. The net financial result was virtually unchanged from 2003 at CHF -17.4 million.

Liquidity, financing and shareholders' equity

Net debt was reduced CHF 138 million from the CHF 242 million of 2003 to CHF 104 million. The sale of real estate and various business units produced net proceeds of CHF 293 million. With a CHF 34 million reduction in net working capital, net cash provided by operating activities rose CHF 38 million to CHF 175 million.

The gains from the sale of real estate not required for business operations and of non-core business units provided the Valora Group with a CHF 150 million net cash inflow from investing activities. In addition to CHF 49 million in ordinary operating investments, CHF 31 million was spent on the acquisition of the Austrian-based PGV Group. Cash flow from financing activities was affected primarily by the repayment of CHF 59 million in bank debts and the CHF 152 million spent on the share buyback programme.

Cash and cash equivalents increased to CHF 292 million.

As part of the share buyback programme which was continued in 2004, a further 512'000 Valora shares were acquired by the company. The Extraordinary General Meeting of Shareholders of October 20, 2004 approved the deletion of 454'000 shares and the purchase of up to 270'000 further registered shares by the date of the 2005 Ordinary General Meeting in order to further reduce share capital. Share capital amounted to CHF 35.7 million at the end of 2004.

The Board of Directors will recommend to the 2005 Ordinary General Meeting that the nominal value of the Valora registered share be reduced from its present CHF 10.00 to CHF 1.00 and that the difference of CHF 9.00 be repaid to shareholders.

Financial risks

The impact of risks on the balance sheet and income statement demands a systematic and holistic analysis of all the risks to which a company is exposed and of its overall risk exposure. Valora consistently and systematically monitors and manages its financial risk items and produces a comprehensive annual analysis of all its financial risks. These comprise interest rate and currency risks and the risks inherent in the Group's financial investments. (Commodity risks are no longer included in this analysis following the sale of the Group's coffee roasting businesses in 2004.)

The latest assessment (as of June 30, 2004) was based on the following assumptions:

- The risk exposure is calculated for a 12-month period.
- Each risk is assessed at one standard deviation (STD), i.e. with a likelihood of occurrence of 68%. The interest rate risk, for example, means that Valora is likely to incur additional interest costs of up to CHF 1.2 million in 68% of all possible cases. Two STDs cover 95% of all likelihoods of occurrence and entail additional interest costs of up to CHF 2.4 million.
- The intercorrelations between individual risk categories (certain risks can increase or diminish one another) are included in the analysis.

The impact of risks determined (at one STD) can be summarised as follows:

| in CHF million | 2004 | 2003 |
|---|--------|--------|
| Interest-rate risks | 1.2 | 2.3 |
| Currency risks | 23.2 | 22.5 |
| Commodity risks | 0.0 | 6.9 |
| Financial investments (treasury shares) | 23.9 | 25.4 |
| Intercorrelations | - 15.2 | - 10.2 |
| Total | 33.1 | 46.9 |
| Impact on income statement | 7.9 | 17.0 |
| Impact on balance sheet | 52.7 | 57.1 |

The overall financial risk exposure of the Valora Group remains low at some 8.5% of shareholders' equity.

J Outlook

Having successfully completed most of its planned divestitures, Valora will be concentrating on the Group's restructuring and disposing of the Fotolabo Group in 2005. With the overall economic situation remaining less than stable, the cost economies initiated will be crucial to maintaining results at their present levels. Valora is confident of returning to growth once these structural adjustments have been completed in the course of 2006.

Consolidated income statement

| January 1 to December 31, in CHF 000 (except per share amounts) | Note | 2004 | % | 2003 | % |

| Balance at December 31, 2004 | 35 700 | 0 | 660 096 | - 77 685 | 3 387 | 621 498 |

A dividend of CHF 9.00 was paid in 2004 (2003: CHF 9.00). Dividend payments are based on the net income for the year and the balance brought forward by the parent company Valora Holding AG. The Board of Directors will recommend to the 2005 Ordinary General Meeting of Shareholders that the nominal value of the Valora share be reduced by CHF 9.00 to CHF 1.00 per share.

Of the CHF 151.6 million spent on the purchase of treasury stock, CHF 150.3 million was used to purchase the 512'000 Valora shares acquired via the second trading line. A total of 9'020 treasury shares were sold to employees under the employee share ownership plan. The capital reduction was effected through the deletion of 454'000 treasury shares (2003: 176'000 shares), as had been approved by the Extraordinary General Meeting of Shareholders of October 20, 2004. Following the capital reduction, share capital at December 31, 2004 consisted of 3'570'000 fully-paid-up registered shares (2003: 4'024'000 shares) with a nominal value of CHF 10.00 per share. The Extraordinary General Meeting of Shareholders of October 20, 2004 also approved the additional purchase of up to 270'000 registered shares by the date of the 2005 Ordinary General Meeting in order to further reduce share capital. The repurchase of this final tranche of shares was completed on February 11, 2005.

The company has conditional capital of 84'000 shares, which the Board of Directors is empowered to issue in connection with current and future employee and management share ownership plans. No such shares had been issued by December 31, 2004.

The accompanying notes form an integral part of these consolidated financial statements.

Notes to the consolidated financial statements

1 Summary of significant accounting policies

Description of business. Valora is an international distribution and convenience group with operating activities in the following business segments. Segment reporting of these business segments is disclosed accordingly in note 28 (page 43). Transfer prices between subsidiaries and business segments are determined on arm's length basis.

Valora Retail: Valora Retail operates small retail shops in heavily frequented locations throughout Europe (Switzerland, Germany and Luxembourg) and functions as a marketing and distribution system with comprehensive geographic coverage for press products, to-bacco and consumer goods for daily use and the impulse buyer's market.

Valora Wholesale: Valora Wholesale supplies kiosks and other small outlets with newsprint, tobacco and food products and other convenience goods.

Valora Trade: Valora Trade serves as an exclusive sales representative distributing branded food and non-food products together with goods from its own production to retail customers.

Valora Imaging: Valora Imaging specialises in providing innovative services for private customers in the photo development and image processing fields. It operates its own manufacturing sites for conventional and digital image processing.

Corporate: Central activities not attributable to individual business segments, including centrally-performed real estate management activities.

Basis of presentation. The consolidated financial statements of Valora have been prepared under the historical cost convention (except for securities available for sale, which are carried at market value, and financial assets and financial liabilities, which are stated at fair value) and in accordance with International Financial Reporting Standards (IFRS) and in conformity with the legal provisions of the Swiss Code of Obligations. The financial statements are prepared in Swiss francs (CHF). The summary of the significant accounting policies is explained below.

The preparation of financial statements in conformity with generally-accepted accounting principles requires the use of estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Although these estimates are based on management's best knowledge of current events and actions Valora may undertake in the future, actual results may ultimately differ from such estimates.

Application of new accounting standards. The amendments effected to the IFRS effective January 1, 2005 have not been retroactively adopted. The new IFRS 3 was applied to acquisitions effected after March 30, 2004. The new standards will be applied from the 2005 business year onwards.

Scope of consolidation. A list of all significant subsidiaries is presented in note 31.

Principles of consolidation. The consolidated financial statements of Valora include the operations of Valora Holding AG and all its direct and indirect subsidiaries which Valora Holding AG controls with more than 50% of voting rights.

Investments and joint ventures where Valora exercises significant influence but does not have control are accounted for using the equity method. Under the equity method, investments are disclosed as investments in associates and presented at their fair value as of the date of acquisition, adjusted for Valora's share in retained earnings (losses) resulting after the date of acquisition.

Subsidiaries and investments acquired or disposed of during the year are included in the consolidated financial statements after the date of acquisition (assumption of control) and excluded after the date of sale respectively.

Investments in companies which the Group neither controls nor exercises significant influence on – generally when Valora's interest is less than 20% – are recorded at fair value. All intercompany balances, transactions and profits are eliminated on consolidation. Balances and transactions with investments and joint ventures accounted using the equity method are separately disclosed as items with associates.

Minority interests in shareholders' equity and net income are also disclosed separately.

Goodwill from acquisitions and other intangible assets. Differences between the purchase price of acquisitions and the fair value of net assets acquired are capitalised as goodwill from acquisitions. Goodwill and other intangible assets are amortised on a straight-line basis over their estimated useful life, up to a maximum of 20 years. Goodwill from acquisitions effected after March 30, 2004 is no longer amortised in compliance with IFRS 3.

Disposals of business units. In the case of disposals of business units, results from operations are presented in the corresponding ordinary income statement and cash flow statement positions up until the date of disposal. The difference between the sale proceeds and the net asset value on the sale date is shown – less the direct sale costs involved – under gains on disposals of business units.

Impairments and focus strategy costs. Impairments were effected on real estate not yet disposed of and general costs arising from the implementation of the strategy resolved by the Board of Directors under which the Valora Group is to focus on its core business activities. These are summarised in the income statement and separately presented.

Foreign currency translation. Transactions denominated in foreign currencies are recorded at the rate of exchange prevailing at the dates of transaction. At the end of the accounting period the unsettled balances in foreign currency receivables and liabilities are valued at the rate of exchange prevailing at the balance sheet date, with resulting exchange rate differences charged to income.

The assets and liabilities of subsidiaries reporting in currencies other than Swiss francs are translated at the rates of exchange prevailing at the balance sheet date. Income, expenses, cash flows and other movement items are translated at the average exchange rates for the period. Translation gains and losses are accumulated and separately disclosed as cumulative translation adjustments in shareholders' equity.

Cash and cash equivalents. Cash and cash equivalents include petty cash, banks sight deposits and short-term money-market investments carried at market value with original maturity dates of three months or less.

Securities available for sale. Securities available for sale are carried at market value and comprise publicly-traded equities, bonds and money market investments with maturity dates of more than three months. Unrealised gains and losses are recognised as income and expense as incurred.

Trade accounts receivable. Trade accounts receivable are recorded at face value less any value adjustments required for doubtful accounts. No long-term trade accounts receivable exist.

Inventories. Inventories are valued at the lower of cost and net realisable value using either the weighted average method or the first-in, first-out (FIFO) method. Allowances are made for obsolete and slow-moving items. Unsettled commodity forward contracts relating to inventory purchases of certain production companies are not capitalised.

Property, plant and equipment. Property, plant and equipment including investment property are recorded at cost less accumulated depreciation. The fair values stated in the notes are based on current calculations of capitalised earnings values. Changes in fair value are not capitalised. Leasehold improvements are depreciated over the shorter of their estimated useful life and the remaining term of the lease. Repairs and maintenance are expensed as incurred while major renovations and improvements are capitalised as property, plant and equipment and depreciated over their estimated useful lives. Borrowing costs incurred during the construction of property, plant and equipment are expensed as incurred.

Depreciation is effected using the straight-line method based on the following estimated useful lives:

| | Years |
|---|-------|
| Buildings, for own use | 20–40 |
| Investment property | 20–60 |
| Machinery, equipment, installations and tools | 6–10 |
| Vehicles | 5 |
| IT hardware and software | 3–5 |
| Other intangible assets | 3–10 |

Leases. Assets acquired under leasing agreements which effectively substantially transfer all the risks and benefits incidental to ownership from the lessor to the lessee are classified as finance leases. Finance leases are recorded at amounts equivalent to the estimated net present value of the future minimum lease payments, which approximate the fair value at the inception of the lease. The estimated net present value of the future minimum lease payments is correspondingly recorded as a finance lease obligation. Assets under finance leases are amortised over their estimated useful lives.

Operating lease payments are charged to income as incurred.

Impairment of non-current assets. Property, plant and equipment and other non-current assets, including goodwill and other intangible assets, are reviewed for impairment losses at least annually and whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Assets whose carrying values exceed their recoverable amount are written down to an amount determined using discounted net future cash flows expected to be generated by the asset.

Net revenues and revenue recognition. Net revenues include all sales of goods and services, net of any revenue deductions including rebates, discounts and other agreed deductions as well as allowances for bad debts. Revenues are recognised when goods are delivered or handed over or services are rendered.

Share-based payments. Share-based payments are not shown on the income statement. The new IFRS 2 applicable from January 1, 2005 will result in current share-based payments being shown on the income statement from the 2005 business year onwards.

Provisions. Provisions are recorded when a present obligation resulting from a past event has been incurred, its amount can be reasonably estimated and it is probable that an outflow of resources will be required to settle the obligation.

Interest-bearing debt. Interest-bearing obligations are valued at amortised cost, with the difference between purchase price and repayment amount shown under financial expenses over the duration of the obligation on the basis of actual interest rates.

Retirement benefits. Valora contributes in accordance with local requirements to various defined-benefit and defined-contribution pension plans. The pension cost in each period is calculated on the basis of yearly actuarial valuations. Pension costs are accounted using the projected unit credit method. Any actuarial gains or losses exceeding the greater of 10% of the projected benefit obligation or the fair value of the plan assets are amortised using the corridor method, i.e. over the average remaining service lives of the insurees concerned.

Income taxes. Current income taxes are based on taxable income of the current year and are charged to income as incurred.

Deferred income taxes are determined using the liability method with the applicable current income tax rates applied on a comprehensive basis to all temporary differences. Tax savings resulting from tax losses carried forward applicable to future taxable income and other deferred income tax assets are only recognised to the extent that future realisation is probable.

Financial risk factors. The Valora Group's activities expose it to a variety of financial risks, including the effects of changes in debt and equity market prices, foreign currency exchange rates and interest rates. The Group currently uses no derivative financial instruments to hedge certain exposures.

Foreign exchange risks. The Valora Group operates internationally and is thus exposed to foreign exchange risks arising from various currency exposures, primarily with respect to the euro and Swedish Krona. Valora Holding AG has a number of direct and indirect investments in foreign subsidiaries whose net assets are exposed to currency translation risks.

Interest rate risks. The Group's income and operating cash flows are substantially independent of changes in market interest rates. The Group has neither significant interest-bearing assets nor long-term fixed-term interest-incurring debt, except for the $4\frac{1}{2}\%$ bond redeemable in 2005 and the syndicated credit facility (see note 19).

Credit risks. The Group's accounts receivable do not contain any significant individual credit risks or concentrations of credit risk.

Accounting for derivative financial instruments and hedging activities. Valora does not currently hold any hedges against interest or currency risks. All such hedges are effected in accordance with Group hedging policy guidelines, are centrally effected and administered, and are only concluded with top-quality financial institutions. No uncovered short transactions are executed.

Derivative financial instruments are initially recognised in the balance sheet at cost and subsequently shown at fair value. The gains and losses resulting from the value adjustments entailed are recognised as income and expense.

Fair value estimation. The fair value of publicly-traded derivatives and trading and available-for-sale securities is based on quoted market prices on the balance sheet date. The fair value of interest-rate swaps is calculated at the present value of the estimated future cash flows. The fair value of forward foreign exchange contracts is determined using forward-exchange market rates at the balance sheet date.

Earnings per share. Basic earnings per share are calculated by dividing net income by the weighted average number of outstanding shares of the parent company, Valora Holding AG.

2 Acquisitions and disposals of business units

Transactions in 2004. Disposals of subsidiaries. As part of its overall focus strategy to concentrate on its core business activities, the Valora Group pursued its previously announced intention to dispose of business units and real estate not required for business operations in the course of 2004. The results of these transactions, which are shown separately on the consolidated income statement, are presented in more detail below:

Gains on disposals of business units

Business units disposed of under the focus strategy

| Business unit, country | Date control ceased | Segment |
|--|---------------------|------------------|
| | | |
| Dolmetsch AG, Switzerland | 01.01.2004 | Corporate |
| BSV Buch Rack-Jobbing, Switzerland | 01.01.2004 | Valora Wholesale |
| Again Production AB, Sweden | 01.01.2004 | Valora Trade |
| Merkur Confiserien, Switzerland | 01.06.2004 | Valora Retail |
| Merkur Kaffee, Switzerland | 01.07.2004 | Valora Trade |
| Schirmer Kaffee GmbH, Germany | 01.10.2004 | Valora Trade |
| Stutz FotoColor AG, Switzerland | 01.10.2004 | Valora Imaging |
| Color Media GmbH, Germany | 01.10.2004 | Valora Imaging |
| Kwadrant Sales Promotion BV, Netherlands | 01.10.2004 | Valora Imaging |
| Starfoto BV, Netherlands | 01.10.2004 | Valora Imaging |
| Dialab Oy, Finland | 01.10.2004 | Valora Imaging |
| Colorzenith S.r.I., Italy | 01.10.2004 | Valora Imaging |
| Distriforce Direct Mail, Switzerland | 31.12.2004 | Valora Wholesale |
| Nuxo Marketing, Switzerland | 31.12.2004 | Valora Trade |

Balance-sheet amounts of business units disposed of

| in CHF 000 | |
|--|----------|
| Current assets | 62 060 |
| Non-current assets | 33 449 |
| Current liabilities | - 24 561 |
| Long-term liabilities | - 11 889 |
| = Net assets disposed of | 59 059 |
| Cumulative translation adjustments of business units disposed of | - 1 380 |
| Sale price | 80 161 |
| = Gains on disposals of business units | 22 482 |
| Purchase price payments received | 80 161 |
| Cash and cash equivalents sold | - 6 903 |
| = Net cash inflow from disposals of business units | 73 258 |

Gains on real estate disposals

| in CHF 000 | |
|--------------------------------------|---------|
| Total carrying amount | 93 896 |
| Total sale price | 161 625 |
| Total gains on real estate disposals | 67 729 |

Impairments and focus strategy costs

| in CHF 000 | |
|--|---------|
| Impairments on buildings | 11 606 |
| Impairments on intangible assets | 3 000 |
| Project and consultancy costs | 4 023 |
| Of which included in prior-year accounts | - 6 100 |
| Total impairments and focus strategy costs | 12 529 |

The impairment on buildings relates to real estate not required for business operations which is available for sale under the focus strategy but had not yet been sold by the end of 2004. These are mostly properties in Germany, which have been written down to their net realisable value.

Acquisitions of subsidiaries. Valora Wholesale acquired 100% of Pressegrossvertrieb Salzburg GmbH on October 1, 2004. The company, which is active in the press wholesale business and delivers magazines to retail outlets throughout Austria, was included in the scope of consolidation from October 1, 2004 onwards, and contributed CHF 33.3 million in net revenues and net income of CHF 0.1 million to consolidated results for the year. If the acquisition had been effected on January 1, 2004 and the company's results had thus been consolidated for the full financial year, consolidated net revenues would have amounted to CHF 3'101.9 million (PGV: CHF 145.1 million) and consolidated net income would have stood at CHF 41.8 million (PGV: CHF 7.3 million).

Balance sheet values of companies consolidated for the first time

| in CHF 000 | Fair value | Acquiree's |
|--|------------|------------------------|
| Current assets | 35 673 | carrying amount 35 196 |
| | | |
| Non-current assets | 50 638 | 36 342 |
| Current liabilities | - 33 113 | - 32 601 |
| Long-term liabilities | - 26 911 | - 22 357 |
| = Net assets acquired / shareholders' equity | 26 287 | 16 580 |
| Goodwill acquired | 4 894 | |
| = Purchase price of subsidiaries acquired | 31 181 | |
| Cash purchase price | 30 860 | |
| Direct costs of acquisition | 321 | |
| Cash and cash equivalents acquired | - 673 | |
| = Cash used in acquisition of subsidiaries | 30 508 | |

Capitalised goodwill consists of non-capitalisable portions of the purchase price paid for entry into the Austrian market, the experience of the management acquired and their personal relations with publishing houses.

Valora also increased its shareholding in Charles Pettersen AS, Norway (in the Valora Trade division) from 90% to 100% during 2004. This entailed the acquisition of net assets worth CHF 1.1 million at a purchase price of CHF 2.2 million, generating additional goodwill of CHF 1.1 million.

Transactions in 2003. Acquisitions of subsidiaries. Valora acquired all the shares in Negozio Stazione SA, Muralto (in the Valora Retail division) effective January 1, 2003. Valora also increased its shareholding in Geschäftshaus Immobilien AG from 63% to 100% on the same date. The shareholding in Charles Pettersen AS, Norway was increased from 80% to 90% in the course of the year. And the remaining 24% shareholding in Stilke GmbH, Hamburg was acquired effective July 1, 2003.

Balance sheet values of companies consolidated for the first time

| in CHF 000 | |
|--|-------|
| Current assets | 128 |
| Non-current assets | 316 |
| Current liabilities | - 306 |
| Long-term liabilities | - 128 |
| = Net assets acquired / shareholders' equity | 10 |
| Goodwill acquired | 385 |
| = Purchase price of subsidiaries acquired | 395 |
| Cash and cash equivalents acquired | - 17 |
| = Cash used in acquisition of subsidiaries | 378 |

Disposals of subsidiaries. Valora's entire shareholdings in Alimarca Dubai and Alimarca Spain SA (both within the Valora Trade division) were disposed of effective January 1 and July 1, 2003 respectively.

Balance sheet values of companies disposed of

| in CHF 000 | |
|--|---------|
| Current assets | 1 198 |
| Non-current assets | 996 |
| Current liabilities | - 1 398 |
| Long-term liabilities | - 1 435 |
| = Net assets disposed of | - 639 |
| Sale price | 0 |
| = Gains on disposals of subsidiaries | 639 |
| Cash and cash equivalents | - 123 |
| = Net cash outflow from disposal of subsidiaries | - 123 |

3 Discontinuing operations

Valora announced on February 11, 2005 that the negotiations to incorporate its Valora Imaging division into a joint venture had failed. In view of this, the Board of Directors decided that the imaging business should be disposed of in 2005. The discontinuing operation comprises the consumer imaging segment of the Valora Imaging division, which is active in the mail-order business in Switzerland, Germany, France, Belgium and Finland. Following the disposal effective October 1, 2004 of the professional imaging segment as part of Valora's current strategy of focusing on its core business activities, the division consisted of the consumer imaging sector only at December 31, 2004.

Income statement of discontinued business activities

| in CHF 000 | 1.131.12.2004 | 1.131.12.2003 |
|---|---------------|---------------|
| Net revenues | 131 669 | 155 100 |
| Cost of goods | - 21 361 | - 24 035 |
| Gross margin | 110 308 | 131 065 |
| Personnel expenses | - 29 744 | - 30 257 |
| Other operating expenses | - 65 273 | - 65 413 |
| Depreciation and amortisation of operating assets | - 5 008 | - 6 256 |
| Other income, net | 1 612 | - 5 289 |
| Amortisation of goodwill | - 130 017 | - 143 297 |
| Earnings before interest and taxes (EBIT) | - 118 122 | - 119 447 |
| Financial result | - 222 | - 9 105 |
| Loss before income taxes | - 118 344 | - 128 552 |
| Income taxes | - 636 | - 4 275 |
| Net loss | - 118 980 | - 132 827 |

Net assets of discontinued business activities

| in CHF 000 | 31.12.2004 | 31.12.2003 |
|-----------------------|------------|------------|
| Current assets | 33 032 | 44 519 |
| Non-current assets | 58 437 | 184 602 |
| Current liabilities | - 28 682 | - 39 062 |
| Long-term liabilities | - 2 742 | - 9 248 |
| Net assets | 60 045 | 180 811 |

Cash flow of discontinued business activities

| in CHF 000 | 1.131.12.2004 | 1.131.12.2003 |
|---|---------------|---------------|
| Net cash provided by operating activities (cash flow) | 25 652 | 20 271 |
| Net cash used in investing activities | - 11 893 | - 374 |
| Net cash used in financing activities | - 23 152 | - 31 926 |
| Translation adjustments on cash and cash equivalents | - 82 | 663 |
| Total change in cash and cash equivalents | - 9 475 | - 11 366 |

4 Personnel expenses

| in CHF 000 | 2004 | 2003 |
|---|---------|---------|
| Salaries and wages | 450 505 | 464 091 |
| Social security expenses and pension cost | 70 192 | 72 380 |
| Other personnel expenses | 8 884 | 7 391 |
| Total personnel expenses | 529 581 | 543 862 |
| Average number of employees (full-time equivalents) | 8 440 | 8 995 |

5 Other operating expenses

| in CHF 000 | 2004 | 2003 |
|----------------------------------|---------|---------|
| Rent | 115 851 | 132 116 |
| Repairs and maintenance | 6 789 | 6 292 |
| Real estate expenses | 2 781 | 2 429 |
| Energy | 20 214 | 19 702 |
| Insurance | 5 012 | 5 152 |
| Communication and IT | 17 805 | 15 356 |
| Advertising and sales | 94 728 | 116 535 |
| Shipping and dispatch | 84 887 | 81 162 |
| General administration | 22 960 | 32 112 |
| Capital and other taxes | 2 127 | 2 938 |
| Miscellaneous operating expenses | 38 062 | 42 921 |
| Total other operating expenses | 411 216 | 456 715 |

The sizeable year-on-year decline in rental costs is due to the impact on the 2004 financial statements of the disposal of the Dolmetsch and Merkur outlets, the closure of sales outlets under the restructuring in Germany and the fact that the prior-year amount included the creation of restructuring reserves.

In addition to the impact of the sale of business units, advertising and sales costs were reduced through a change in the statement of such costs at Valora Trade Nordics. Administration costs were reduced by the absence in 2004 of the refinancing and special audit costs included in the prior-year amount.

Miscellaneous operating expenses include payments for operating leases amounting to CHF 6.0 million (2003: CHF 5.0 million).

6 Other income, net

| in CHF 000 | 2004 | 2003 |
|--|--------|----------|
| Rental income | 13 864 | 12 725 |
| Gains (losses) on sales of non-current assets, net | 63 | - 155 |
| Miscellaneous expenses | - 926 | - 17 165 |
| Miscellaneous income | 11 498 | 4 800 |
| Total other income, net | 24 499 | 205 |

Other income was reduced largely by the absence of the non-recurring costs incurred in 2003. Miscellaneous income included CHF 8.0 million deriving from the release of provisions no longer required.

7 Financial expenses

| in CHF 000 | 2004 | 2003 |

| Total reported income taxes (as above) | 1 731 | - 17 934 |

10 Weighted average number of shares

| The weighted average number of shares can be summarised as follows: | | |
|---|-----------|-----------|
| Shares | 2004 | 2003 |
| Number of shares at January 1 | 4 024 000 | 4 200 000 |
| Average number of treasury shares including second trading line | - 359 994 | - 264 912 |
| Average number of shares | 3 664 006 | 3 935 088 |

There were no dilutive effects for 2004 or 2003.

11 Cash and cash equivalents

| in CHF 000 | 2004 | 2003 |
|--|---------|---------|
| Petty cash and bank sight deposits | 170 768 | 207 142 |
| Short-term deposits and money market investments | 120 877 | 2 786 |
| Total cash and cash equivalents | 291 645 | 209 928 |

12 Securities available for sale

| in CHF 000 | 2004 | 2003 |
|--|-------|-------|
| Shares, options and participation certificates | 451 | 600 |
| Fixed-interest-rate bonds and time deposits | 2 796 | 3 238 |
| Total securities available for sale | 3 247 | 3 838 |

13 Trade accounts receivable

| in CHF 000 | 2004 | 2003 |
|--------------------------------------|---------|---------|
| Trade accounts receivable, gross | 200 467 | 219 461 |
| Allowance for bad and doubtful debts | - 7 687 | - 7 532 |
| Total trade accounts receivable, net | 192 780 | 211 929 |

14 Inventories

| in CHF 000 | 2004 | 2003 |
|----------------------------|---------|---------|
| Raw materials and supplies | 9 926 | 23 795 |
| Finished goods | 4 938 | 6 451 |
| Merchandise | 245 344 | 274 463 |
| Total inventories | 260 208 | 304 709 |

Inventories contain no items stated at net realisable value.

Some production companies within the Valora Group purchase raw materials and other goods by means of forward contracts in the course of their normal business activities. Such contracts are always physically exercised. The Valora Group held open forward commodity contracts with a contractual value of CHF 7.2 million (2003: CHF 19.6 million) and a latest settlement date of December 30, 2005 on the balance sheet date.

15 Other current assets

| in CHF 000 | 2004 | 2003 |
|--|--------|--------|
| Value-added tax, withholding tax and other taxes recoverable | 7 162 | 7 285 |

¹⁾ Reclassification to software and other intangible assets

The impairments on land and buildings are explained in note 2.

Land and buildings include investment property with an estimated market value of approximately CHF 45.2 million (2003: CHF 186.1 million) and the following at cost and net book values:

| million CHF | At cost | Accumulated depreciation | Net book value |
|------------------------------|---------|--------------------------|-------------------|
| Balance at December 31, 2003 | 155.5 | - 32.7 | 122.8 |
| Additions | 3.2 | - 14.8 | - 11.6 |
| Disposals | - 110.5 | 28.2 | - 82.3 |
| Balance at December 31, 2004 | 48.2 | - 19.3 | 28.9 |

Rental income from investment property amounted to CHF 12.6 million (2003: CHF 11.6 million), while the corresponding direct operating expenses totalled CHF 1.9 million (2003: CHF 1.7 million). Since the disposal of property under the focus strategy was effected at the end of 2004, the full year's income and costs from this investment property are included in the 2004 results.

Property, plant and equipment includes investment property valued at CHF 13.2 million (2003: CHF 66.8 million) and other assets of CHF 161.0 million (2003: CHF 159.6 million) which are pledged to secure mortgage loans.

Property, plant and equipment also includes CHF 1.2 million of land and buildings acquired under finance leases (2003: CHF 1.2 million) and CHF 1.9 million of machinery and equipment under finance leases (2003: CHF 1.3 million).

| Fire insurance values of property, plant and equipment | | |
|--|-----------|-----------|
| in CHF 000 | 2004 | 2003 |
| Property | 382 564 | 471 106 |

 $^{^{\}rm 1)}$ Reclassification from property, plant and equipment

The impairment on software and other intangible assets is explained in note 2. In view of the revised IAS 22/new IFRS 3 which entered into effect on January 1, 2005, goodwill will be frozen at its levels on December 31, 2004. No further goodwill amortisations will be effected unless value adjustments are required.

Impairments on goodwill in 2004. In view of the decision by the Board of Directors to dispose of the Group's Consumer Imaging business, the goodwill related to this item can no longer be based on its value in use but is based on its expected net selling price, which was estimated on the basis of the prices paid in the past in similar transactions and valuations of comparable companies (multiples).

Impairments on goodwill in 2003. The decline in demand, which seems to suggest longer-term changes in consumer behaviour, and the upheaval in the traditional photo development sector with the accelerated shift to digital photography resulted in a decline in volumes and a corresponding reduction in gross profit at the Valora Imaging division. These developments, along with the business's medium-term prospects, prompted Group Executive Management to reassess the value of the goodwill deriving from its Fotolabo acquisition. Based on the estimated future free cash flows expected to be generated by Valora Imaging, discounted with the weighted average cost of capital of the Valora Group of 7%, the goodwill concerned was deemed to have decreased in value from that previously stated. In view of this, the goodwill carrying amount was reduced through a goodwill impairment of CHF 125.1 million to the value in use of the consumer imaging business or the expected sale price of the professional imaging business.

A review of the other goodwill stated for the business segments Valora Retail, Valora Trade, Valora Wholesale and Corporate, based on estimated future free cash flows, discounted with the weighted average cost of capital of the Valora Group of 7%, resulted in additional impairments of CHF 47.3 million down to the corresponding values in use. Some CHF 24.5 million of this amount relates to the activities of Valora Retail in Germany, in the light of a reassessment of their future prospects in a difficult economic environment, and CHF 12.3 million relates to the trading activities of Valora Trade in Scandinavia, following a reassessment of future market perspectives.

The current amortisation period for goodwill amounts is not affected by the impairment effected. Future goodwill amortisation will thus be reassigned on a straight-line basis over the remaining amortisation period (15 years for Fotolabo).

18 Other long-term assets

| in CHF 000 | 2004 | 2003 |
|---------------------------------|--------|--------|
| Net pension asset (see note 23) | 54 574 | 54 574 |
| Loans receivable | 14 016 | 11 123 |
| Investments in associates | 3 573 | 3 323 |
| Other investments | 1 402 | 1 766 |
| Total other long-term assets | 73 565 | 70 786 |

Investments in associates include a 33% shareholding in Cevanova AG (Valora Retail), which operates the avec shops at rail stations in Switzerland, and a 45% shareholding in Borup Kemi Denmark (Valora Trade).

19 Debt

| Bond payable | | | 2004 | 2003 |
|------------------------------|---------|----------|---------|---------|
| in CHF 000 | Gross | Discount | net | net |
| 41/2% bond payable 1999-2005 | 220 000 | - 499 | 219 501 | 218 903 |
| Long-term debt | | | 2004 | 2003 |
| Bank loans | | | 129 710 | 0 |
| Mortgage loans | | | 38 017 | 34 251 |
| Finance lease obligations | | | 2 244 | 2 334 |
| Other long-term debt | | | 8 523 | 519 |
| Total long-term debt | | | 178 494 | 37 104 |

Bank loans derive solely from the syndicated credit facility obtained by Valora Holding AG. Under the credit agreement, the Valora Group has covenanted to remain within certain parameters in terms of its equity ratio and gearing for the duration of the facility.

| | Amount | Maturity | Effective Interest rate |
|-------------|----------------|------------|----------------------------|
| Facility A1 | CHF 50 million | 31.03.2009 | 3.3% |
| Facility A2 | CHF 50 million | 31.03.2009 | 3.5% |
| Facility B | CHF 30 million | 31.03.2011 | 3.8% |

The total facility cannot be prematurely withdrawn by the creditor. Facility A can be repaid by Valora before maturity; Facility B cannot.

| Maturities at year-end were as follows | | |
|--|---------|----------|
| in CHF 000 | 2004 | 2003 |
| Within one year | 1 041 | 65 546 |
| Within 1-2 years | 7 521 | 5 576 |
| Within 2-3 years | 31 633 | 28 302 |
| Within 3-4 years | 976 | 1 039 |
| Within 4-5 years | 100 602 | 1 334 |
| After more than 5 years | 37 762 | 853 |
| Total | 179 535 | 102 650 |
| Current portion of long-term debt | - 1 041 | - 65 546 |
| Total long-term debt | 178 494 | 37 104 |

Interest rates ranged from 1.10% to 4.00%. The weighted average interest rate amounted to 2.46% (2003: 3.39%).

| Credit lines | | |
|--------------------|---------|---------|
| in CHF 000 | 2004 | 2003 |
| Used | 440 | 143 529 |

| Total provisions | 9 800 | 6 165 | 2 351 | 18 316 |

Guarantees. These include contractual guarantees relating to the sale of the Slumberland business and the Selecta IPO. These provisions are assigned to the Corporate business segment.

Changes in 2004: Further guarantees relating to the sale of the Slumberland business and the Selecta IPO expired in 2004. The corresponding provisions were released to income. The disposals of business units resulted in new guarantees, for which new provisions were effected amounting to CHF 5.0 million.

Changes in 2003: A CHF 4.8 million provision relating to Slumberland guarantees which was no longer required was released to income in 2003.

Litigation. A provision totalling CHF 6.5 million was effected in 2003 in Germany in connection with a fraud case and pending litigation in the Valora Retail division. This litigation is expected to be largely conducted in 2005. The conclusion of certain lawsuits prompted the release to income of part of these provisions in 2004. But additional provisions were also effected in the light of new knowledge.

Restructuring. Provisions totalling CHF 12.9 million were effected for restructuring action in 2003. Some CHF 9.7 million of this amount was for Valora Retail (Germany). Provisions of CHF 5.2 million were used in the restructuring of Retail Germany. Part of the restructuring provisions were released to income in view of the progress made.

22 Management and directors' remuneration

Board of Directors. The remuneration of the Board of Directors totalled CHF 0.4 million for the 2004 business year (2003: 0.4 million).

Group Executive Management. The members of Group Executive Management were awarded an aggregate remuneration of CHF 3.8 million for the 2004 business year (2003: CHF 2.8 million).

Details of the management and employee share ownership plans and further remuneration details are provided in note 25. A summary overview of compensations paid and shares assigned is provided in Section 5 of the Corporate Governance report.

23 Retirement benefits

The majority of Valora's employees are covered by employee benefit plans which are funded by the Group, by employee contributions and in certain countries by state authorities. Such plans can be set up as state or company-controlled institutions, as contracts with private insurance companies or as independent trust or pension funds. The benefits provided by such entities vary from country to country depending on the local legal and economic parameters, but are primarily based on employees' years of service and average compensation and generally cover the risks of old age, death and disability in accordance with local occupational pension fund law.

The pension expense of defined contribution plans is charged to income as incurred. The net periodic pension cost and pension obligation of defined benefit plans are calculated using actuarial methods and accounted using the projected unit credit method. Such valuations consider the years of contributions made by the employees and assumptions about future salary increases. The latest actuarial valuation was performed as at December 31, 2004. Current service cost is accrued and charged to income as benefits are earned. Gains and losses from changes in actuarial assumptions are credited or charged to income in equal amounts over the estimated remaining service lives of the insurees.

The underlying actuarial assumptions are based on the economic circumstances of the countries in which the benefit plans are located. Pension plan assets are invested in accordance with applicable local regulations. Valora contributes to employee benefit plans in accordance with applicable plan requirements.

24 Deferred income taxes

Deferred income tax assets and liabilities relate to the following assets and liabilities:

| | g assets a | |
|--|------------|-----------|
| Deferred income tax assets | | |
| in CHF 000 | 2004 | 2003 |
| Trade accounts receivable | 33 | 177 |
| Inventories | 450 | 5 |
| Other current assets | 667 | 99 |
| Property, plant and equipment | 471 | 1 045 |
| Investments and loans receivable | 2 | 2 |
| Intangible and other long-term assets | 15 098 | 19 462 |
| Tax losses carried forward, gross | 149 808 | 150 384 |
| Value adjustments to deferred income tax assets | - 116 487 | - 130 780 |
| Current liabilities | 1 335 | 1 349 |
| Long-term liabilities | 202 | 378 |
| Allocation of deferred income tax assets and income tax liabilities against same tax authorities | - 4 889 | 0 |
| Total deferred income tax assets | 46 690 | 42 121 |
| Deferred income tax liabilities | | |
| Trade accounts receivable | 2 699 | 581 |
| Inventories | 3 264 | 3 001 |
| Other current assets | 362 | 40 |
| Property, plant and equipment | 13 348 | 16 425 |
| Investments and loans receivable | 0 | 1 065 |
| Intangible and other long-term assets | 3 713 | 288 |
| Current liabilities | 696 | 176 |
| Long-term liabilities | 10 412 | 16 989 |
| Future profit distribution from subsidiaries | 1 428 | 1 360 |
| Allocation of deferred income tax assets and income tax liabilities against same tax authorities | - 4 889 | 0 |
| Total deferred income tax liabilities | 31 033 | 39 925 |

Tax-deductible losses carried forward amount to CHF 578 million. These will lapse as follows:

| in CHF 000 | 2004 | 2003 |
|---|---------|---------|
| Within one year | 1 623 | 5 |
| Within 2 years | 378 | 1 974 |
| Within 3 years | 196 | 720 |
| Within 4 years | 87 | 410 |
| Within 5 years | 579 | 14 478 |
| After more than 5 years | 575 632 | 445 051 |
| Total tax-deductible losses carried forward | 578 495 | 462 638 |

The tax-deductible losses lapsing within five years shown for 2003 were largely used to offset gains from the disposal of real estate no longer required for business operations.

25 Employee and management participation plans

Employee shares. Under the rules covering employee share ownership plans, employees who have completed a specified number of years of service are entitled to purchase shares in Valora Holding AG each year at a preferential price which is 60% below the share's average stock market price for the month of November. The number of shares available for purchase at this preferential price depends on the employee's function within the company. All shares purchased in this way are subject to a vesting period of five years. A total of 9'020 employee shares were issued in 2004 at a price of CHF 106.00 each (2003: 9'918 employee shares at a price of CHF 105.00 each).

Management shares. Valora has, since April 23, 2003, offered a management share ownership plan to the members of Group Executive Management and other senior management staff. Such shares are only issued provided a year-on-year increase is recorded in earnings per share. The entitlement to such shares increases in direct proportion to the degree of such a year-on-year improvement, with the maximum number of shares awarded for an increase of 10% or more.

The shares awarded under this management share ownership plan are subject to a vesting period of five years. These shares are issued from the company's treasury stock. Since the earnings-per-share criteria specified were fulfilled between 2003 and 2004, a total of 3'670 shares will be issued under this plan to Group Executive Management and other senior management members in 2005. No such shares were issued in 2004, because the corresponding earnings-per-share criteria were not fulfilled between 2002 and 2003.

Special focus strategy incentive. In view of the special circumstances involved, a further results-related bonus plan was agreed on April 28, 2004 with certain members of Group Executive Management for the implementation of the present focus strategy. The participants in this plan will be entitled to a bonus if the Valora Group achieves a predetermined cumulative free cash flow for 2004 and 2005. The plan is designed to provide a particular incentive to maximise the income deriving from the divestitures effected under the focus strategy. The bonus will be paid from a threshold of 90% achievement of the free cash flow specified upwards, with a maximum bonus payment for 115% achievement or more. 80% of the bonus amount will be paid out in Valora shares and 20% in Valora share options. If the free cash flow target is 100% achieved, the total bonus payable will amount to a maximum of CHF 1.5 million. If the target is 115% achieved, a maximum bonus of CHF 4.5 million will be paid. Any existing entitlements deriving from the ordinary management share ownership plan will be duly considered in such bonus payments: the higher of the two amounts due will be paid to the management member concerned. The shares and options due under this bonus plan will be issued irrevocably on June 30, 2006. All the shares issued will be subject to a five-year vesting period. The accepted value of a Valora share was CHF 306.00. Every option, at an accepted fair value of CHF 41.00, entitles the holder to acquire a Valora share for CHF 306.00 at any time until December 17, 2008. By December 31, 2004, participants in the plan were entitled to a possible 11'611 shares and 21'659 options. In the event of a change of ownership before December 31, 2005, the maximum shares and options awardable will be awarded irrespective of the achievement of the corresponding free cash flow target, and the shares and options so issued will not be subject to any vesting period.

Management options. A management share option plan was established for members of the Board of Directors and Group Executive Management and, on a voluntary basis, for second-tier management staff. The plan was last utilised in 2002, when the persons entitled to do so acquired a total of 4'470'866 listed VALUE options at a price of CHF 0.51 per option. 50 options entitling the holder to acquire one registered share of Valora Holding AG at a price of CHF 350.00. These management options are subject to a vesting period of three years, and can then be exercised or sold between April 17, 2005 and May 18, 2005. The option premiums received were taken directly to consolidated shareholders' equity with no impact on the income statement. A total of 97'000 treasury shares are held as cover for this option issue. This corresponds to 2.7% of total share capital.

Coverage. Coverage of the number of shares required for the management share owner-ship plan, the additional special focus strategy incentive, the management share option plan and the employee share ownership plan is provided by the treasury stock held and the conditional capital (see the consolidated statement of shareholders' equity).

Severance payments. Any member of Group Executive Management serving for several years is entitled to a leaving settlement. For five years' service this leaving settlement amounts to 50%, for eight years' service 100% and for 12 years' service 150% of the average annual remuneration earned in the two preceding years. Leaving settlements of CHF 0.2 million (2003: none) were paid in 2004.

Management insurance. A management insurance scheme is offered to management members which provides insurance cover for old age, death and disability for parts of its insurees' salaries which are not covered by the Swiss state pension scheme and compulsory occupational pension plans.

26 Commitments and contingencies

| Contingent liabilities | | |

| | | | | | | | |

Transfer prices between subsidiaries and business segments are determined on an arm's length basis.

Subsidiaries are charged management fees which are distributed on the basis of gross margins.

The restated 2003 net revenue and EBIT results for Valora Retail, Valora Wholesale and Corporate are due to the transfer of procurement activities from Corporate to Valora Wholesale and the transfer of Location Management for Valora's own retail outlets from Corporate to Retail.

The apportionment of mail-order marketing costs at Valora Imaging was modified in 2004. The new apportionment method complies with an improved differentiation of costs and benefits. The modification had a non-recurring positive effect on the operating result (EBIT) of Valora Imaging of CHF 1.8 million. (If this modification had been effected in 2003, it would have led to a 2004 operating result (EBIT) for Valora Imaging of CHF – 125.5 million (2003: – 115.8 million)).

The segment liabilities of Valora Imaging have been restated for 2003. Loans by the Group to Valora Imaging which in economic terms represent equity are no longer shown as segment liabilities.

29 Transactions and balances with related parties

The real estate no longer required for business operations was offered in a bidding process to a selected group of candidate purchasers. The Valora occupational pension schemes (the Valora Company Pension Scheme and the Valora Patronal Financial Foundation) were also entitled to bid, and would have been chosen as the purchasers of these properties if they had offered at least the same purchase price as the highest outside bidder. The Valora occupational pension schemes submitted their offer as part of their long-term investment strategy. While the first portfolio of properties was sold to investment vehicles of the Credit Suisse Group, the Valora occupational pension schemes submitted the highest bid for the second portfolio and acquired this for CHF 28.6 million.

Apart form this, there were no transactions or balances with related parties.

30 Subsequent events

The Board of Directors resolved on February 10, 2005 that Valora's consumer imaging business should be sold. The Capital Group Companies Ltd., Los Angeles announced on February 1, 2005 that it had reduced its shareholding in Valora Holding AG to less than 5%.

The consolidated financial statements of the Valora Group were approved by the Board of Directors of Valora Holding AG on March 23, 2005. The Board also recommends their approval to the General Meeting of Shareholders of April 27, 2005.

Report of group auditors

Report of the group auditors to the General Meeting of Valora Holding AG, Berne

As auditors of the group, we have audited the consolidated financial statements (income statement, balance sheet, cash flow statement, statement of changes in shareholders' equity and notes, pages 11 to 47) of the Valora Group for the year ended December 31, 2004. These consolidated financial statements are the responsibility of the Board of Directors. Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We confirm that we meet the legal requirements concerning professional qualification and independence.

Our audit was conducted in accordance with auditing standards promulgated by the Swiss profession and with the International Standards on Auditing, which require that an audit be planned and performed to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement. We have examined on a test basis evidence supporting the amounts and disclosures in the consolidated financial statements. We have also assessed the accounting principles used, significant estimates made and the overall consolidated financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the consolidated financial statements give a true and fair view of the financial position, the results of operations and the cash flows in accordance with the International Financial Reporting Standards (IFRS) and comply with Swiss law.

We recommend that the consolidated financial statements submitted to you be approved.

PricewaterhouseCoopers AG

Andreas Baur Andreas Aebersold

Berne, March 24, 2005

Purchases were effected at market prices ranging between CHF 256.50 and CHF 319.25.

- 4 Net release of hidden reserves. There were no net releases of hidden reserves in the 2004 or 2003 business years.
- 5 Significant shareholders. In accordance with the Articles of Incorporation of Valora Holding AG, no shareholder may own more than 5% of the company's share capital without the approval of the Board of Directors. At December 31, 2004, 5% of the share capital comprised 178'500 registered shares. At December 31, 2004 The Capital Group Companies Inc., Los Angeles held 6.3% of the share capital of Valora Holding AG. On February 1, 2005 The Capital Group Companies announced that it had reduced its shareholding in Valora Holding AG to less than 5%. Board and Group Executive Management members and management currently own 0.05% (2003: 0.10%) of the registered share capital.

7 Authorised and conditional capital

The General Meeting of Shareholders of May 11, 2000 approved the creation of conditional capital amounting to CHF 840'000. No conditional capital had been issued by December 31, 2004.

Proposed appropriation of available retained earnings

Proposal for the appropriation of available retained earnings

| Troposal for the appropriation of available retained earnings | | |
|---|--------|----------|
| | | |
| in CHF 000 | 2004 | 2003 |
| Net income for the year | 33 189 | 41 560 |
| + Earnings brought forward | 45 809 | 39 408 |
| Earnings at the meeting's disposal | 78 998 | 80 968 |
| The Board of Directors proposes | | |
| No dividend payment for the 2004 financial year | 0 | - 35 159 |
| Balance to be carried forward | 78 998 | 45 809 |
| Dividend distribution (in CHF) | | |
| Gross dividend per share | | 9.00 |
| less 35% withholding tax | | - 3.15 |
| | | |
| Net dividend payment (in CHF) | | 5.85 |

The Board of Directors will recommend to the 2005 General Meeting of Shareholders that, instead of a dividend payment, the nominal value of the Valora share be reduced by CHF 9.00 and this amount be repaid to shareholders.

Report of statutory auditors

Report of statutory auditors

Report of the statutory auditors to the general meeting of Valora Holding AG, Berne

As statutory auditors, we have audited the accounting records and the financial statements (income statement, balance sheet and notes, pages 50 to 54) of Valora Holding AG for the year ended December 31, 2004.

These financial statements are the responsibility of the Board of Directors. Our responsibility is to express an opinion on these financial statements based on our audit. We confirm that we meet the legal requirements concerning professional qualification and independence.

Our audit was conducted in accordance with auditing standards promulgated by the Swiss profession, which require that an audit be planned and performed to obtain reasonable assurance about whether the financial statements are free from material misstatement. We have examined on a test basis evidence supporting the amounts and disclosures in the financial statements. We have also assessed the accounting principles used, significant estimates made and the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the accounting records, the financial statements and the proposed appropriation of available earnings comply with Swiss law and the company's articles of incorporation.

We recommend that the financial statements submitted to you be approved.

PricewaterhouseCoopers AG

Andreas Baur Andreas Aebersold

Berne, March 24, 2005

Corporate Gouvernance

1 Group structure and shareholders

- 1.1 Group structure. The operational structure of the Valora Group is presented on pages 8 and 9 of the Annual Report.
- 1.1.1 Listed companies within the scope of consolidation. The only listed company within the Valora Group is Valora Holding AG, which is domiciled in Bern. The company is listed on the Zurich and Bern exchanges (securities number 208 897, Telekurs VALN, Reuters VALZn). The company's market capitalisation for the last five years is presented on page 75 of the Financial Report.
- 1.1.2 Non-listed companies within the scope of consolidation. These companies are set out on pages 46 and 47 of the Financial Report, with the company name and domicile, their total share capital and the percentage thereof held by Group companies.
- 1.2 Significant shareholders. The company had knowledge at December 31, 2004 of the following shareholders holding more than 5% of total share capital.

| Shareholder | No. of shares | Holding |
|---|---------------|---------|
| The Capital Group Companies Inc., Los Angeles | 225 765 | 6.32% |

The Capital Group Companies Inc. announced on February 1, 2005 that it had reduced its holding in Valora Holding AG to under 5%.

There are no shareholders' agreements.

1.3 Cross-shareholdings. There are no cross-shareholdings with any other companies.

2 Capital structure

- 2.1 Capital structure at December 31, 2004. Ordinary capital of Valora Holding AG: CHF 35'700'000, comprising 3'570'000 registered shares each of CHF 10.00 nominal value. Conditional capital of Valora Holding AG: CHF 840'000, comprising 84'000 registered shares each of CHF 10.00 nominal value.
- 2.2 Conditional capital. The capital amounting to a maximum of CHF 840'000, comprising 84'000 registered shares each of CHF 10.00 nominal value, was approved by the General Meeting of Shareholders of May 11, 2000. These shares can be used at any time by the Board of Directors to cover the exercising of options granted to employees of the company or Group companies within the overall framework laid down by the Board of Directors, or for entitlements deriving from the management share ownership plan or the employee share ownership plan. Subscription rights are suspended for existing shareholders. No time limits have been resolved. None of this conditional capital had been issued by December 31, 2004.

2.3 Changes in capital. The Board of Directors resolved a two-tranche share buyback programme covering 15% of the company's nominal share capital on August 21, 2003. Shareholders voted at the Extraordinary General Meetings of Shareholders of November 26, 2003 and October 20, 2004 to delete these shares, concluding this share buyback programme. As a result of these actions, the share capital of Valora Holding AG showed the following developments:

| | No. of shares | Share capital in CHF |
|--|---------------|-------------------------|
| Share capital at 31.12.2003 (and since 1997) | 4 200 000 | 42 000 000 |
| Capital reduction through deletion of first tranche of repurchased shares on 18.03.2004 | - 176 000 | - 1 760 000 |
| Capital reduction through deletion of second tranche of repurchased shares on 28.12.2004 | - 454 000 | - 4 540 000 |
| Share capital at 31.12.2004 | 3 570 000 | 35 700 000 |

The Extraordinary General Meeting of Shareholders of October 20, 2004 also approved a proposal by the Board of Directors to conduct a third share buyback programme covering a maximum of 270'000 shares, corresponding to 7.6% of the share capital on December 31, 2004. A total of 178'000 shares hat been repurchased via a second trading line by December 31, 2004, and the share buyback programme was concluded on February 11, 2005. The corresponding capital reduction will be proposed to the General Meeting of Shareholders of April 27, 2005. The changes in the reserves and the shareholders' equity of Valora Holding AG are shown in the balance sheet (page 52) and the notes to the financial statements of Valora Holding AG (page 53) in the Financial Report.

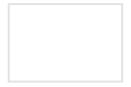

- 2.4 Shares and participation certificates. 3'570'000 registered shares each of CHF 10.00 nominal value. All shares entitle their holder to a dividend, apart from the shares held in treasury by Valora Holding AG. Each share entitles its holder to one vote. Shares currently unrecorded in the share register do not carry voting rights. There are no preferential shares or similar entitlements. The share capital is fully paid up.
 - 2.5 Profit-sharing certificates. Valora has not issued any profit-sharing certificates.
 - 2.6 Limitations on transferability and nominee registrations.
- 2.6.1 Limitation on transferability. The Board of Directors is empowered to refuse to acknowledge the voting rights of a shareholder if the acquirer's holding, together with the voting shares already registered in their name, exceeds the limit of 5% of all registered shares. In such an event, the shares exceeding the 5% threshold will be entered in the share register as non-voting shares. The same rules shall apply to consortia of shareholders. The Board of Directors may acknowledge the voting rights of an acquisition whose acquirer subsequently holds more than 5% of all registered shares, particularly in the case of:
- Share acquisitions in the event of a merger or pooling of business.
- Share acquisitions as a result of a non-cash contribution or a share exchange.
- Share acquisitions effected to cement a long-term collaboration or strategic alliance.

- 2.6.2 Exceptions in the year under review. No exceptions were made in the year under review.
- 2.6.3 Admissibility of nominee registrations. The Board of Directors can approve the registration of nominees to hold registered shares, by applying the relevant regulations or on the basis of agreements. The detailed provisions are specified in Article 4 of the Articles of Incorporation.
- 2.6.4 Procedure and conditions for cancelling statutory privileges and limitations on transferability. All such cancellations are subject to the approval of the General Meeting of Shareholders.
- 2.7 Convertible bonds and options. The company currently has no convertible bond issues outstanding. Apart from the management options specified below, Valora Holding AG and its Group companies had no options outstanding at December 31, 2004.

Details of outstanding management options and of the management share ownership plan and the employee share ownership plan are provided under note 25 on page 40 and 41 of the Financial Report.

3 Board of Directors

3.1 Members of the Board of Directors. Name, year of birth, nationality, education and professional background

Fritz Ammann, 1943, Swiss national, Chairman of the Board since January 2005, doctorate in economics from St. Gallen University, CEO duties in the trading (Metro, Austria; Spar, Germany), watchmaking (Omega and Swatch, Switzerland) and fashion (Charles Jourdan, France; Esprit, USA; Carrera Eyewear, Germany) fields

Fritz Frohofer, 1939, Swiss national, businessman, active in the food sector and IT, various functions within the Valora Group since 1968 including head of corporate planning, head of market divisions and Group CEO from 1980 to 1998.

Andreas Gubler, 1957, Swiss national, doctorate in law, attorneyat-law, active in legal practices in Bern, Zurich and Washington D.C. and with Ernst & Young, member of the executive management of Asklia Holding, partner in the Gubler Walther Leuch law firm in Bern.

Peter Küpfer, 1944, Swiss national, Chairman of the Board until January 2005, certified auditor, various management functions within the Credit Suisse Group, independent business consultant.

Hanne de Mora, 1960, Norwegian national, graduate in economics from HEC Lausanne and MBA from IESE, served with Procter & Gamble and as a partner at McKinsey & Company, co-founder and CEO of a-connect ag, Zurich.

Beatrice Tschanz Kramel, 1944, Swiss national, journalist, editor-in-chief, head of communications at Ringier AG, Jelmoli AG and SAirGroup and member of executive management at Centerpulse.

The Board reconstituted itself at its first meeting of 2005 in January. Dr. Fritz Ammann assumed the chairmanship from Peter Küpfer, who will remain on the Board as an ordinary member until his current term of office expires in 2007.

None of the members of the Board of Directors has any operational management responsibility within or any significant business connections with the Group. Fritz Frohofer served as CEO of the Valora Group from 1980 to 1998.

- 3.2 Significant activities and interests in other publicly-listed companies
- Peter Küpfer: Member of the boards of directors of Swisscom, Julius Bär, Holcim, Unaxis.
- Andreas Gubler: Chairman of the board of directors of Micro Value AG.
- Hanne de Mora: Member of the boards of directors of Norwegian companies Telenor und Tomra.
- **3.3 Cross-involvements.** There are no reciprocal Board appointments in other publicly-listed companies.
- **3.4 Elections and terms of office.** The Board of Directors comprises at least three members. They are elected for a term of three years, after which they may be re-elected. To ensure rotation, the period of office as a Board member is limited: every member must retire at the latest after serving four full three-year terms. Members retire permanently from the Board on the date of the Ordinary General Meeting of Shareholders preceding their 70th birthday. This also applies to the Chairman of the Board. Any exceptions to the above are subject to the approval of the General Meeting of Shareholders.

The election and re-election of Board members is staggered as much as possible.

Board members' terms of office:

| board members terms of office: | | |
|--------------------------------|-------------------|---------------|
| | | |
| | Initially elected | Elected until |
| Fritz Ammann | 2001 | 2007 |
| Fritz Frohofer | 1998 | 2007 |
| Andreas Gubler | 1999 | 2005 |
| Peter Küpfer | 1998 | 2007 |
| Hanne de Mora | 2003 | 2006 |
| Beatrice Tschanz Kramel | 2000 | 2006 |

3.5 Internal organisational structure and committees. There is no specific allocation of responsibilities among Board members. Board members are, however, selected to ensure that the Board as a whole has specific expertise in the finance, marketing, legal, trading, branded goods, communications and production fields. The Board of Directors meets five to seven times a year.

The Board's committees are composed as follows:

- Audit Committee: Hanne de Mora (chair), Fritz Frohofer, Andreas Gubler and Peter Küpfer.
- Nomination and Compensation Committee: Beatrice Tschanz Kramel (chair since January 2005), Fritz Ammann (chair until January 2005) and Peter Küpfer.

The duties and authorities of the above Board committees are specified in the Organisation Regulations. The committees have both preparatory and decision-making functions. The Board and its committees may also invite further persons, particularly the CEO, the CFO and representatives of the internal and external auditors, to attend their meetings.

3.6 Definition of areas of responsibility. The Board of Directors is responsible for approving corporate strategy and specifying the organisational structure, and bears overall responsibility for personnel matters. It establishes the guidelines for financial and investment policy, and approves long-term borrowings in excess of CHF 10 million, acquisitions and disposals of shareholdings and the purchase and sale of real estate whose transaction price exceeds CHF 2 million.

The CEO is responsible for the overall management of the Group. He coordinates the activities of the various divisions, chairs Group Executive Management and is the immediate superior of each Group Executive Management member.

Group Executive Management is responsible for preparing all the Group's business activities which lie within the remit of the CEO or the Board of Directors. The heads of the divisions are responsible for managing their division with the aim of ensuring its profitable and sustainable development. They are also responsible for establishing the management tools required for their division in addition to those specified in the relevant Group-level guidelines.

3.7 Information and control instruments vis-à-vis executive management. The Board of Directors is regularly provided, under the Valora Group's management information system, with monthly short-term income statements for the divisions and the Group, details of significant business events, internal auditors' reports, information on the shareholder structure and details of progress on the implementation of actions resolved by the General Meeting of Shareholders or itself. The Chairman of the Board is provided with a copy of the minutes of all Group Executive Management meetings. Any member of the Board of Directors may demand information from Group Executive Management on the Group's general business and operations and, with the approval of the Chairman of the Board, on specific business transactions. Any Board member may also demand the provision for their inspection of company books and files.

4 Group Executive Management

4.1 Members of Group Executive Management

Peter Wüst, 1953, Swiss national, graduate in business administration, senior management functions at Diethelm & Co. (international trading) and Jakob Rohner AG (textile trading), head of sales & marketing of The Nuance Group. Head of the Valora Sourcing & Marketing divison from March 1, 2003; CEO of the Valora Group since June 11, 2003.

Markus Voegeli, 1961, Swiss national, graduate in business administration, senior controlling and finance functions at Swissair in Switzerland. CFO of subsidiaries of The Nuance Group in Australia and of the Swissôtel Group in the USA. CFO and subsequently CEO of MediService AG, Zuchwil. CFO of the Valora Group since August 15, 2004.

Josef Jungo, 1957, Swiss national, graduate in humanities, senior management functions at IBM. Joined Valora in 1996, head of the k Group Switzerland division, head of the Valora Wholesale division and Deputy CEO.

Jürg Arquint, 1957, Swiss national, federal sales management diploma, consultant at Fides Treuhand, independent activities in the travel and tourism sector, managing director of Also Holding, member of the executive managements of Globus and EPA. Developed own self-service video library chain. Head of the Valora Retail division since January 1, 2005.

Alex Minder, 1957, Swiss national, graduate in business administration, executive MBA, senior management positions at Bally International AG and Impuls Saatchi & Saatchi, managing director of Cadbury Switzerland. Head of the Valora Trade division since May 1, 2004.

André Hurter, 1958, Swiss national, doctorate in economics, senior management functions at Longines, IBM, Cap Gemini and Ernst & Young and executive vice president at TCS. Head of the Valora Imaging division since January 1, 2003.

Ruedi Keller, 1951, Swiss national, SIB diploma in financial controlling, IFKS higher business diploma, various management positions at Swissair in and outside Switzerland, head of economics at the Swissair Training Centre, head of strategic business development of The Nuance Group. Head of the Valora Management Services division since January 19, 2004.

Josef Jungo held executive positions with Valora Retail Switzerland prior to his appointment to Group Executive Management. None of the other members of Group Executive Management performed any function with Valora before assuming their Group Executive Management duties.

- 4.2 Other activities and vested interests. None of the members of Group Executive Management currently has any further activities in any management or supervisory body of any listed Swiss or foreign company, has any permanent management or consultancy function for any company outside the Valora Group, has any public function or holds any political office.
- 4.3 Management contracts. There are no management contracts between Valora Holding AG and any companies or individuals outside the Valora Group.

5 Compensations, shareholdings and loans

- 5.1 Content and method of determining compensations and of the shareholding programmes
- 5.1.1 Board of Directors. The Members of the Board of Directors receive an agreed emolument (a special emolument is paid to the Chairman). In accordance with a resolution passed by the Board of Directors on April 23, 2003, 60% of this emolument is paid out in cash and 40% is paid out in the form of Valora shares under the management share ownership plan. These shares are only awarded, however, provided the annual earningsper-share result is an increase on the previous year. Such year-on-year calculations are based on the 12-month period between General Meetings. If the year-on-year EPS increase amounts to 5%, the value of the shares awarded will be equal to the ordinary emolument. The maximum entitlement will be paid in the event of year-on-year EPS growth of 10%. All

such entitlements are calculated on a linear scale. All such shares awarded are subject to a five-year vesting period.

Board members receive no meeting attendance fees, and only have their actual travel expenses reimbursed. Board members' emoluments are set and regularly reviewed by the full Board of Directors.

5.1.2 Group Executive Management. The members of Group Executive Management are paid a fixed annual salary plus a results-related bonus. The latter is calculated on the basis of certain key indicators – the net Group result, the EBITA result of their division, the direct costs of their division and NWC – and the achievement of technical targets. A portion of the total results-related bonus, determined by the Board of Directors, is paid in the form of Valora shares under the management share ownership plan. These shares are only awarded, however, provided the annual earnings-per-share result is an increase on the previous year. The maximum entitlement will be paid in the event of year-on-year EPS growth of 10%. All such entitlements are calculated on a linear scale. All such shares awarded are subject to a five-year vesting period.

Members of Group Executive Management are also entitled to purchase Valora shares on favourable terms under the employee share ownership plan. The number of such shares which may be purchased is determined by the consolidated net profit of the Valora Group. In view of the special circumstances involved, a further results-related bonus plan was agreed on April 28, 2004 with certain members of Group Executive Management for the implementation of the present focus strategy. The participants in this plan will be entitled to a bonus if the Valora Group achieves a predetermined cumulative free cash flow for 2004 and 2005. The plan is designed to provide a particular incentive to maximise the income deriving from the divestitures effected under the focus strategy. The bonus will be paid from a threshold of 90% achievement of the free cash flow specified upwards, with a maximum bonus payment for 115% achievement or more. 80% of the bonus amount will be paid out in Valora shares and 20% in Valora share options. If the free cash flow target is 100% achieved, the total bonus payable will amount to a maximum of CHF 1.5 million. If the target is 115% achieved, a maximum bonus of CHF 4.5 million will be paid. Any existing entitlements deriving from the ordinary management share ownership plan will be duly considered in such bonus payments: the higher of the two amounts due will be paid to the management member concerned. The shares and options due under this bonus plan will be issued irrevocably on June 30, 2006. All the shares issued will be subject to a five-year vesting period. The accepted value of a Valora share is CHF 306.00. Every option, at an accepted fair value of CHF 41.00, will entitle the holder to acquire a Valora share for CHF 306.00 at any time until December 17, 2008. By December 31, 2004, participants in the plan were entitled to a possible 11'611 shares and 21'659 options. The underlying shares are secured by existing treasury stock and conditional capital. In the event of a change of ownership before December 31, 2005, the maximum shares and options awardable will be awarded irrespective of the achievement of the corresponding free cash flow target, and the shares and options so issued will not be subject to any vesting period.

The Compensation Committee of the Board of Directors determines the total compensations to be paid and also determines the general thrust and alignment of results-related emoluments.

5.2 Compensations for acting members of governing bodies. All such compensations relate to services performed in 2004 (2003). Part of these compensations - especially variable components - will not be paid out until spring 2005.

Since there are no executive members of the Board of Directors, all the details relating to the Board of Directors are solely for non-executive Board members.

5.2.1 Board of Directors. The six members of the Board of Directors were remunerated as follows:

| | 2004 | 2003 |
|--------------------|---------|---------|
| Emolument (in CHF) | 414 000 | 402 000 |
| Shares (number) | none | none |

5.2.2 Group Executive Management. The members of Group Executive Management were remunerated as follows:

| | 2004 | 2003 |
|---|-----------|-----------|
| Salary including results-related bonus (in CHF) | 3 846 000 | 2 808 000 |
| Management shares (number) | 3 020 | none |

- 5.2.3 Severance payments. Any member of Group Executive Management serving for several years is entitled to a leaving settlement. For five years' service this leaving settlement amounts to 50%, for eight years' service 100% and for 12 years' service 150% of the average annual remuneration earned in the two preceding years. Leaving settlements of CHF 0.2 million (2003: none) were paid in 2004.
- 5.3 Compensations for former members of governing bodies. No such compensations were paid.
 - 5.4 Share allotments in the year under review.

Board of Directors: none

Group Executive Management: 3'020 shares

5.5 Share ownership on December 31, 2004.

Board of Directors: 756 shares

Group Executive Management: 883 shares

5.6 Options. This information is provided under note 25 on pages 40 and 41 of the Financial Report. Options held on December 31, 2004:

Board of Directors: 1'377'500 options Group Executive

Group Executive Management: 196'100 options

- 5.7 Additional fees and remunerations. No additional fees or remunerations were paid.
- 5.8 Loans granted by governing bodies. There are no loans granted by governing bodies.
- **5.9** Highest total compensation. The highest total of all compensation paid to a member of the Board of Directors amounted to:

| | 2004 | 2003 |
|--------------------|---------|---------|
| Emolument (in CHF) | 150 000 | 150 000 |
| Shares (number) | none | none |

6 Shareholders' participation rights

- **6.1** Voting-rights and representation restrictions. The relevant details are specified in Article 4 on page 3 of the Articles of Incorporation of Valora Holding AG of November 26, 2003.
- **6.2** Statutory quorums. The relevant details are specified in Article 12 on page 7 of the Articles of Incorporation of Valora Holding AG of November 26, 2003.
- 6.3 Convocation of the General Meeting of Shareholders. The General Meeting of Shareholders is convened in accordance with the relevant legal provisions. In addition to the public notice of the General Meeting, shareholders can also be invited by letter.
- **6.4** Agenda. The Articles of Incorporation do not contain any rules for the inclusion of items on the agenda of a General Meeting. To ensure that shareholders are informed of such inclusion in good time, any item to be included on the agenda of a General Meeting must be communicated to the company six weeks in advance of the General Meeting concerned.
- **6.5** Registrations in the share register. To participate at a General Meeting, a share-holder must submit their request for registration in the share register to the company at least three weeks in advance of the General Meeting concerned.

7 Changes of control and defence measures

- 7.1 Duty to make an offer. The company has no "opting out" or "opting up" clauses in its Articles of Incorporation.
- 7.2 Clauses on changes of control. Apart from the members of Group Executive Management entitled to participate in the focus strategy-based results-related bonus plan described under 5.1.2 above, there are no change-of-control clauses in favour of members of the Board of Directors and/or Group Executive Management or other management members.

8 Auditors

- 8.1 Duration of the mandate and term of office of the lead auditor. Pricewaterhouse-Coopers AG accepted the mandate as the company's statutory auditors at the 1942 General Meeting of Shareholders. The lead auditor, Andreas Baur, has been responsible for the mandate since 1999.
- **8.2** Auditing fees. The total costs of the auditing conducted by PricewaterhouseCoopers AG in 2004 amounted to CHF 1.2 million.
- 8.3 Additional fees. PricewaterhouseCoopers AG charged the companies of the Valora Group a total of CHF 1.5 million for additional services performed in 2004.
- 8.4 Supervisory and control instruments pertaining to the audit. The Audit Committee of the Board of Directors is responsible for supervising these activities.

9 Information policy

The company holds an annual results press conference every year for the media and financial analysts. All shareholders receive, together with the invitation to the General Meeting of Shareholders, a summary of the key figures from the Annual Report.

The company publishes a consolidated report (unaudited) on the first half-year at the end of August and distributes this to all shareholders. Telephone conferences are conducted if warranted by major developments or events.

The CHF 35.7 million share capital of Valora Holding AG consists of 3.57 million registered shares each with a nominal value of CHF 10.00.

The Board of Directors resolved a two-tranche share buyback programme covering 15% of the company's nominal share capital on August 21, 2003. Shareholders voted at the Extraordinary General Meetings of Shareholders of November 26, 2003 and October 20, 2004 to reduce share capital through the deletion of 176'000 and 454'000 shares respectively, thereby concluding the first share buyback programme.

The Extraordinary General Meeting of Shareholders of October 20, 2004 also approved a proposal by the Board of Directors to conduct a further share buyback programme covering a maximum of 270'000 shares, or 7.6% of the share capital at December 31, 2004. A total of 178'000 shares had been repurchased via a second trading line by December 31, 2004, and the programme was concluded on February 11, 2005. The corresponding capital reduction will be proposed to the General Meeting of Shareholders of April 27, 2005.

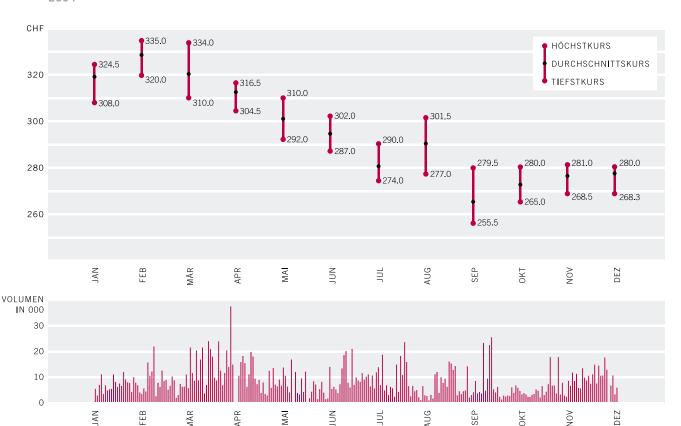

The company has held conditional capital up to a maximum of CHF 840'000 since the 2000 General Meeting of Shareholders. These shares are intended to cover existing option plans for the Board of Directors and management along with management and employee share ownership plans. No conditional capital had been issued by December 31, 2004.

The Articles of Incorporation of Valora Holding AG restrict the voting rights of any individual shareholder or groups of shareholders to 5%. The Board of Directors may authorise exceptions to this. Identical registration rules apply to both foreign and Swiss shareholders. The proposed CHF 9.00 reduction in nominal value is expected to be effected in mid-July 2005. The company has paid a dividend every year since 1920.

Valora share price development

The Valora share showed an overall negative trend in 2004. After opening at CHF 304 (last trade 2003: CHF 308) in January, the share price rose to an annual high of CHF 335 on February 23. The price then steadily declined to reach CHF 283 at the end of July. After rallying briefly to CHF 295, the share price showed a further continued decline following the publication of Valora's first-half results on August 26, reaching an annual low of CHF 256 on September 13. The share price then recovered somewhat, closing the year at CHF 280. These trends translate into an annual performance of -9%, substantially below the +7% reported by the Swiss Performance Index.
